

MINUTES OF TENDER COMMITTEE MEETING (COMMON SOFTWARE)

Date: 18th April 2017

Venue: Boardroom

Participants:

MPCB: AS(T), JD (APC), Shri Kollur, ASO-EIC, IT-Mgr

PMC: Vinayak Muchandi, Bhalchandra Patil (QVCS)

Agenda:

Qualification status of M/s AAxis Nano Technology Pvt. Ltd.

Hon'ble Chairman (MPCB) had directed to review Technical Qualification status of M/s AAxis Nano Technology Pvt. Ltd. (ANTPL) evaluated during EOI phase to qualify for RFP phase of the project. Hence a meeting of Tender Committee was called for the same

Minutes:

Qualification status of M/s AAxis Nano Technology Pvt. Ltd. (ANTPL)

The Expression of Interest (EOI) submitted by (ANTPL) was reviewed. Also verbal discussion of the bidder with Tender Committee member was deliberated upon. Following were the observations of the Tender Committee.

- a. M/s AAxis Nano Technology Pvt. Ltd. (ANTPL) has not officially communicated to MPCB for any reasons so far.
- b. As informed by ANTPL to the Tender Committee member, they get the software developed from other entity and therefore requested to be considered for RFP stage. The EOI clearly mentions that consortium will not be allowed (clause no 7.1.1 page 15 of 23). The committee re-endorsed this clause due to past experiences and related problems faced by the Board.
- c. The EOI specifically asks for "completed orders of software development". A weightage of 10 marks per order was assigned and maximum marks for this criterion were 20. However M/s AAxis Nano Technology Pvt. Ltd. (ANTPL) has attached only one order. Also the order attached as testimonial by ANTPL is for Software License Provisioning and not for Software development as required by the Board.
- d. Consequently M/s AAxis Nano Technology Pvt. Ltd. (ANTPL) has scored a total of 26.1 out of maximum 50 marks for technical evaluation. The minimum score for qualification as prescribed in EOI is 30 marks.

All of the above shows that M/s AAxis Nano Technology Pvt. Ltd. (ANTPL) does not meet the required technical qualification criteria.

The committee therefore unanimously agreed that M/s AAxis Nano Technology Pvt. Ltd. (ANTPL) does not meet the necessary technical criteria prescribed by EOI. Hence they should not be considered for the RFP stage.
